# DAILY NEVADA STATE JOURNAL

C. C. Powning, Editor & Proprietor

SUNDAY ..... JUNE 25, 1882.

Hon. H. B. Anthony was lately re-elected by the Rhode Island General Assembly to the United States Senate for the fifth term, receiving the very flattering vote of 92 out of 100 cast. Such continued evidence of confidence and support, of course, is a source of great gratification to the senior Senator. The Providence Journal, however, is disposed to rank Senator Anthony's service a little ahead of that of Thomas H. Benton, because the latter's "thirty years' service" was short some five months, while the former "has been elected for the full term of thirty years." Mr. Anthony has several years to serve yet, and lots of things might happen before his well rounded record of thirty full years is completed.

The business of raising Angora goats for their wool and skins is proving to be quite profitable on the Humboldt, near Battle Mountain. The Messenger says that at Bailey's ranch, on Mill Creek, there are 1,400 full-grown goats and 300 kids. The range is very fine and goats have done extremely well there, and the future is very bright for a continuance of their growth. Bailey says the goat business needs to be increased; that the demand for mohair and Angora gloves is constantly increasing, and that he is now extending the business of raising the goat in various places; that it is difficult to obtain a sufficient number of skins to supply their manufacture so as to meet the call for gloves.

The California Democrats have nominated Gen. Stoneman for Governor. The nomination is the very best they could have made, and it will force the Republicans to nominate Senator Miller or ex-Chief Justice Rhodes, if they wish to prevent Stoneman's election. Gen. Stoneman may not have done his full duty as a Railroad Commissioner, but he has given evidence that he is not the subservient tool of the Central Pacific.

Much interest is manifested at Washington in the condition of Senator Johnston of Virginia. If he dies, a Readjuster will probably succeed him, and thus render it possible to redistrict the State and insure nearly a solid Administration delegation to Congress from Virginia.

The crop reports from the West come in with the usual variations. One week there's a prospect of more wheat and corn than can possibly be stored, and the next week's estimates are being made on the percentage of decrease from last year.

Two German expeditions are to come to American stations to observe the transit of Venus in December. Observations will be taken at Stratford, Conn., and at Aikens, S. C., also at Bahia Blanco and Punta Arenas, in South America.

"The Stolen White Elephant" is the title of a new volume of short sketches by Mark Twain, some of which Mark avers were left out of "The Tramp Abroad," and several of which are now published for the first time.

The census statistics show that over six millions of people in the United States, over twenty-one years of age, are unable to write. This number is equally divided between the white and colored population.

The Carson Tribune says quite a number of Carson families intend visiting Reno on the Fourth. The V. & T. R. R. fare is one dollar to Reno and return. This is a liberal rate and should be taken advantage of.

The latest political rumor from New York is that Cornell is to be nominated for Governor and Senator Lapham is to resign his seat in the Senate, and Conkling is to be returned to the Senate as his successor.

At the late session of the National Encampment of the Grand Army of the Republic, Denver, Colorado, was selected as the place for the next meeting, and September, 1883, as the month.

The New York Times forecasts the Forty-eighth Congress to contain 173 Republicans in the House and 152 Democrats, a majority of 21, against 15 now.

Conkling will not get back to the United States Senate. But after seeing Lapham or Miller even his most bitter enemy would wish Conkling was there.

The California Democrats nominated James H. Budd for Congress from the Second District. A bud which will not blossom.

Cassidy writes that Congress will adjourn about July 15th, when he will immediately return to this State.

## Railroad Earnings

The earnings of the leading railroads in the United States in May, and since January 1st, were as follows:

May. Five Months.

1882..... \$20,824,492 \$25,190,817

1881..... 18,521,382 79,202,470

Increase, 1882 \$2,303,110 \$15,988,347

The railway traffic in the month of May is usually the lightest of the year.

In May last year the earnings were unusually large for that month, which

made the comparison for the past month particularly encouraging.

The following shows the gross earnings of the Central Pacific and Union Pacific:

1882. C. P. U. P.

May..... \$2,353,000 \$2,491,590

Since January 1. 9,070,000 10,916,000

The Central Pacific earned \$2,091,410

in May, 1881, and \$8,730,542 for the

first five months of that year, showing

gains of \$261,590 and \$1,239,455 re-

spectively.

## WANTON DESTRUCTION.

[Carson Bee]

It is stated that the threatened destruction of the forest which clothe the Sierra Nevada Mountains will have the effect of almost completely changing the mountain region, and that for the worse. It would seem as if all persons whose vocations lead them into the Sierra were in a league against the forest. Campers and hunters kindle fires which frequently spread and involve large tracts of valuable timber, ranchers deliberately fire the woods for the purpose of burning the underbrush, so as to make pasture for their flocks, and all who need timber go into the mountains and chop down trees at will. The ultimate effect of this devastation is hinted at in the growing scarcity of water in the mountains. Men who do business on the streams that flow down from the Sierras assert that they are gradually sinking and the supply of water at the mills is diminishing every year. If measures are not adopted to protect the forests that belt the Rocky mountains and the Sierra Nevada, the time is not far distant when these ranges, now the cradle of storms and rainfalls, will be as bald and dead as the mountains that overlook the desolation of Syria. The Legislatures of this State and of California should enact laws looking to the preservation of the timber of our mountain ranges.

## "From Ohio."

[Eureka Leader]

Some facetious newspapers sarcastically call attention to the fact that Hon. R. M. Daggett is "from Ohio." They have become so used to abusing the hypocritical, fraudulent administration of Hayes that they cannot refrain from sticking their venomous darts into the legitimate administration of Arthur. It is true that Mr. Daggett is "from Ohio," but is a native of New York. Senator Jones is "from Ohio," but is a native of England. Ex-Senator Sharon is also "from Ohio," having been born a short distance from town where the writer spent several years. But coming from Ohio has not insured the usefulness of any of those named. Jones, through the curious mutations of time, has proved the right man in the right place for Nevada. Sharon, while he showed an utter contempt for the rules of the Senate, proved a good friend not only to Nevada but the Pacific Coast. He did not sit idle in his chair, and content himself by revising speeches in the Record that were never made in the Senate, but he bravely met financial disaster in San Francisco, and saved the Coast, or at least a large portion of it, from bankruptcy. Daggett left the home of his adoption and tramped over the plains behind a yoke of oxen. His versatile pen has always been ready to advocate the interests of the State which he claims for his own, and none have performed better or more faithful service. His ability is unquestioned, his integrity unimpeached. What better men could come "from Ohio," or any other section?

## The White Plains Artesian Well.

The Winnemucca Silver State of June 22 says:

A note from Henry Eck, Superintendent of the Desert Crystal Salt Works at White Plains, informs us that the well is now down 250 feet, and flowing water has been struck. The water is somewhat brackish, and boring is being carried on at the rate of from forty to sixty feet per day. The machinery is run by experienced men from the Pennsylvania oil regions, and they are prepared to sink 2,000 feet, if necessary. The well is being sunk by the Central Pacific Railroad Company, who are desirous of getting water for their locomotives at White Plains.

The Winnemucca Silver State (Democratic) makes this admission:

At the State election, two weeks ago, the Republicans carried Portland by an overwhelming majority, having purchased at least one thousand Democratic votes at very low rates.

Axtell ought not to be confirmed.

Compound sage powder for constipation for sale by Osburn & Shoemaker.

Mothers! Mothers!! Mothers!!!

You are disturbed at night and broken by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

SUNDAY..... JUNE 25, 1882.

PRICE OF DAILY JOURNAL,  
15 CENTS PER WEEK.

## TOWN AND COUNTY.

Virginia will celebrate the 4th, after all said and done.

A saloon will soon be opened again at the old Cooke's corner.

Mr. E. K. Grove will soon open a photograph gallery in Reno.

Senator W. W. Hobart is in Eureka. He is not in the field for Governor.

Miss Fannie Barnett has gone to San Francisco to spend a few weeks.

Mr. G. W. Mylert and his partner, Mr. Hughes, were in town last evening.

Controller Hallock, Attorney General Murphy and D. A. Bender, of Carson, were passengers for the Bay last night.

Those who wish a rare literary treat should attend Rev. Father Buchard's lecture at the Catholic Church this evening.

The Board of Pardons will meet on the 10th of next month, at which time many cases will come up for consideration.

There is a large amount of freight at the depot awaiting transportation to various points of destination north of Reno.

This is splendid weather for bathing, and Pechner's is a splendid place to go and get a bath. Hot and cold water, shower, clean towels, etc.

Miss Emma Linn, who has been teaching school at Winnemucca for two or three years, is spending the vacation with her parents in Reno.

Hon. J. W. Richards, Mr. J. J. Chambers, County Recorder, and Mr. D. H. Wightman, ex-Commissioner, all of Churchill county, were in Reno yesterday.

A few small patches of snow are still visible on the tops of the peaks of the higher ranges of mountains in various directions. These, however, are daily diminishing in number.

W. B. Todhunter, who has a ranch at Fort McDermitt, has just stocked it with four peafowls, two cocks and two hens. The peacock is a rare fowl in Nevada. Todhunter got his from Ohio.

There will be preaching at the Congregational Church at 11 a.m., and 7:30 p.m. Sunday School at 12:20. A cordial welcome to all.

A. B. PALMER, Pastor.

Chase & Thyes still continue to please the public with the finest kinds of drinks and cigars, and with choice eats on the lunch table. Their saloon is noted as the pleasure resort of Reno.

Usual service in the Baptist Church at 11 a.m., and 7:45 p.m., by Rev. E. B. Hatch. Morning subject, "A Forward Movement," evening, "Light Weight." Seats free and all made welcome.

Bishop Whitaker has gone down the Carson and Colorado Railroad for a visit to some of the towns and camps in the southeastern part of the State. He will not forget to do some advertising for the "School for Girls."

## Fast Work.

On Friday Mr. Felix Dillon Chant, engaged in lathing Mr. Goo W. Huffaker's new house, completed his job, winding up with a day's work somewhat remarkable. He put on 3,100 laths, with five nails to each lath.

## Mt. St. Mary's

Parents and friends of the children should attend the exercises to-morrow at Mt. St. Mary's Academy. They will begin at 9 a.m. sharp. The programme of the day will be found elsewhere. Do not fail to read it.

## Accident

S. C. Lowe was seriously injured at Katz & Henry's mill in Dog Valley yesterday by a log rolling over him, breaking his left leg, and injuring him internally. Dr. Bergman, who was telegraphed for, has hopes of his recovery.

## Churchill Notes

The crops are doing finely down in Churchill county.

It is thought that Hon. Chas. Kaiser and Hon. J. W. Richards will be the opposing candidates for State Senator this Fall.

Hon. W. C. Grimes is a candidate for District Judge of the Fifth District.

## Fourth of July

The Committee of Arrangements held a meeting last evening, and decided to have the Virginia Battery come down with one section—two guns.

The Committee find that in order to make the celebration a complete success \$200 more will be needed, and our citizens must put it up! A Committee will call for it to-morrow.

**Good Times Coming.**  
The general outlook for Reno is most encouraging. Our farmers are assured a bountiful harvest and better prices than for the past five years. The beef cattle trade is steadily increasing, and will be very lively this Fall. The developments in the Antelope mine are sufficient to render it reasonably certain that it will be No. 1 bullion producer. Pyramid will come to the front after awhile. When the N. & O. road gets up North a little farther many new industries in that section will contribute to the advancement and prosperity of Reno. The farms, the mines, and the great timber belt of that section will pay tribute to us; box factories and planing mills will be run by the Truckee at this point, and enable us to compete with Truckee. The old Auburn Mill stamps will soon be clattering again, and the miners along the line of the Carson and Colorado road will effectually demand immense and perfect reduction works here. The Asylum will put some money into our pockets, instead of Dr. Clark's. The Central Pacific is seriously thinking of removing their shops from Wadsworth to this point. Altogether the outlook is very encouraging and favorable.

## The White House Clothing Emporium.

In these times, when coin is not very abundant, it is a good thing to know where one can get the most and the best for his money. As for the man who desires to buy clothing, all he has to do is to go to the White House Clothing Emporium of Abrahams Brothers. They have put prices below bedrock on fine clothing and furnishing goods, as well as on suits and clothing for every day wear. Show them the coin and they will show you bargains. They will not allow themselves to be undersold. They will duplicate bargains got anywhere else on the Pacific Coast—not even excepting San Francisco. They are making a clean sweep of their fine and costly stock, and invite everyone to call and see their goods, learn their prices and become acquainted with their style of doing business.

## From Wadsworth to Reno.

The Central Pacific has not yet commenced work on the new shop at Wadsworth, and it is not unlikely that they will abandon Wadsworth and build at Reno. This proposition is now under consideration, with a fair prospect of being decided upon in our favor. Three or four years ago the company informed the citizens of Wadsworth of its intention to remove the shops from their present location. But the decision to put them on this side of the river is not looked upon with favor by the Wadsworth people, who say they would just as leave the company built them one hundred miles distant from the town. Should the main shops be located anywhere else, two or three repair stalls would be left at Wadsworth. The company may conclude to locate them at the Humboldt House instead of Reno. The matter will be definitely determined within the next two months.

## Advertisement Letter.

Following is a list of letters remaining in the Reno, Nevada, Postoffice, for the week ending June 24th.

Anderson, Frank Jameson, E. W. Ashby, T. M. Langdon, Thomas Arnold, Mrs. Tillie Luckman, J. Alexander, Jackson Langdon, Mrs. Bronsleman, Mrs. W. Land, Frank Clote, Geo. Lapsen, Mr. Clough, Joseph Paddock N. V. Counter, Miss Geo. Peterson, Chas Daugherty, Wm. Peterson, Cal-3 Duffy, Jas. Spinney, A. Donahue, Mrs. M. Stewart, Aleck Frey, A. Trarley, Chas-2 Folson, Miss N. Thompson, Wm. Gabel, A. S. Whittier, Geo. Grove, E. K. White, Richard Greenlee, Willis Woodward, R. E. Hawley, M. White, Elvin Hartwell, B. M. Wood, A. B. Hughes, Joel Wolff, H. P. Hunter, Robert Zion, J. M. Johnson, Mr. S. M. Jamison, P. M.

## The Removal of the Insane

The Enterprise thinks "it will be a wonder if the removal is made without an accident of some kind occurring. When they find themselves on the move en masse the patients are very liable to become excited. No doubt many of the patients will come along as quietly as sane persons, and will enjoy and be benefited by the trip, but there will be another class that upon the first wild hoop from any person will at once start up in great excitement. This transportation of so many insane persons such a distance will at all events be a very interesting experiment, and one that we should think would attract physicians as volunteer assistants on the occasion."

## Serious Accident at Verdi

C. McLaughlin, a young man in the employ of Lonkey and Smith's planing mill at Verdi, had his right arm caught by the circular saw last Thursday afternoon. The hand was almost severed from the arm, just hanging by the skin. Dr. Bergman, who was telegraphed for, amputated the limb a little above the wrist. Although the young man had lost blood enough to faint before the doctor's arrival, he has braced up wonderfully well under his mental and physical shock.

## MT. ST. MARY'S ACADEMY.

POWDER

superior quality, fresh from the mills. It is constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is never way superior to any other Powder Market.

We have been awarded successively

the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superiority of our products over all others.

We also call attention to our

HERCULES POWDER.

which combines all the force of other strong explosives now in use, and the lifting force of the best Blasting Powder, thus making it vastly superior to any other compound now in use.
